Hi Dolores,

Just a quick question about all these documents. Have you been providing comment e.g., in the definitions they define the term Adverse Effect as only impacts to wetland designated uses. It should not be limited to wetlands etc...

They also limit impact or adverse impact to compensatory mitigation review and link it back to "adverse effect" which is limited to wetlands.

I have not been following these calls or materials knowing you have been. Just wondering what feedback has been provided so we can determine what if any we should provide.

Thanks, Kathy

**Subject:** As Discussed on Assumption Workgroup Call - Please Review and Send Redline Edits back to Brenda before November Workgroup Call

Dear ASWM Assumption Workgroup Members,

As we discussed on Monday's workgroup call, we have a number of documents that are about to be posted for real-time access on ASWM's website.

We want to make sure these pass muster and are as useful as possible. For this reason, we are asking workgroup members to review and share any ideas or insights.

Please find attached four DRAFT documents (not for circulation).

I am asking you to review and provide redline feedback/edits/additions for the following documents:

- 1) List of common definitions for the 404 Assumption Process (are definitions broad enough to be useful to most states? What additional definitions might be helpful to add? Are any wrong?)
- 2) Spreadsheet of Assumption Examples (Are there any additional documents that we should add? Are any of these NOT useful? States from which they came – let us know if you do NOT want us to share the links/PDFs)
- 3) Revised ASWM Assumption Website Content (the workgroup already reviewed and approved this content – however, any additional edits or additions are welcome)
- 4) Assumption Frequently Asked Questions (the workgroup also already reviewed and approved this content – however, any additional edits or comments are welcome; especially if there are additional questions that we should include).

There are a number of additional documents in the development process, but these are the ones ready for workgroup review.

Please email me your suggested changes at your earliest convenience and prior to the next workgroup meeting on November 9<sup>th</sup> (note this was changed to one week earlier – make sure you accept the forthcoming calendar invite change).

Thanks for all your support, insights and wisdom,

Brenda
